ROAD READY IN ½ THE TIME.

Introducing Spartan's S-180 line of custom fire apparatus.

When timing is everything, the new S-180 line gives departments quick access to customized fire trucks — built to spec — in half the time of any competitor. Finally, a customized apparatus that can be delivered when you need it. All without sacrificing strength, durability, safety, and storage.

Each S-180 configuration includes the following:

Custom Cab

- Most spacious cab with the best entry/egress
- Safer and more comfortable work environment

Advanced Protection System®

- 8 air bags
- Anti roll-over technology
- Ejection mitigation
- Electronic Traction Control

Durability

- Custom high strength aluminum body
- Vibra Torq Body Mount System reduces vibration and stress on the body

Maximized Compartment Space

- Full height/split depth compartments
- Overall wheel well customizable storage area
- Extra large rear compartment

Shorter Wheel Base

- A smaller pump house module
- Body lengths ranging from 156" -168"
